## German Lloyd Coming Here

May Ply Between the Coast  
and the Orient.

Los Angeles February 17.—The great liners of the North German Lloyd Steamship Company may ply between San Francisco and the Orient within the year, according to Count Charles S. von Helmut, manager of transportation, who is here with Robert Capelle of San Francisco, the Pacific Coast agent. The manager, with his wife and daughter, is on a tour of the world, but at the same time he is making a close inspection of this Coast with

a view to establishing a transpacific service. At present the company's steamers ply between Europe, China and Japan, but if an investigation warrants—and von Helmut says he feels confident it will—half a dozen extra ships will be put on and a quick schedule between San Francisco and Yokohama maintained, with Honolulu an important factor.

"The Japan-San Francisco run would be in the nature of an experiment," said von Helmut, "but I have every reason to believe, from what I have been able to observe, that it would be a success, and I expect it will be undertaken. As for Los Angeles, we would not run here before the Panama canal is completed, because the business is not here to warrant it. I am delighted with all I have seen of California, its climate, enterprise and prospects, and I foresee a vast future here for the company which I am helping to direct."

A N impromptu musicale is always possible when you have an **INNER-PLAYER** Piano.

Use it alone or to accompany other instruments. It is ready whenever you are.

When we say "**INNER-PLAYER** Piano", we do not mean any ordinary player piano. We refer to those made by The Cable Company—the *only* ones to which this title **INNER-PLAYER** properly applies.

These instruments have many special, patented features which you do not find in any other pianos containing player devices. And it is these features which enable you to play any composition with the human expression obtained when a skilled pianist plays by hand.

All you have to do with an **INNER-PLAYER** Piano is to operate the pedals and move three little levers. It is simplicity itself and yet you produce the most pleasing effects.

Call and we will place an **INNER-PLAYER** Piano at your disposal. You can then see for yourself how easy it is to play your favorite selections on one of these instruments.
